

Finishes

Soil Release Finish

Prevents liquids and solids from soaking into the fabric.
Makes cleaning easier.

Moisture Wicking Finish

Enables moisture (sweat) to be pulled away from the body and into the material.

Wrinkle Resistant Finish

Prevents fabric from wrinkling.

FR Finish

Prevents and/or reduces fabric ignition/combustion. Tests and requirements vary depending on the end use.

Repel & Release Finish

Prevents liquids from soaking into the fabric and makes cleaning easier.

Antimicrobial

Finish that inhibits the growth of bacterial microbes on the fabric.

Calendaring

Compresses fabric using heat and pressure. Adds luster and smooths fabric.

Face Finishing

Processes that can soften fabric surface by sanding the fabric by various methods.
